# We Are Offering **Master Projects** "Machine Learning for Understanding Glycobiology"

Who we are: **Molecular Drug Targeting Group (MDT)**
Dept of Pharmaceutical Sciences
University of Vienna

Candidates: Anyone interested in machine learning and/or information science and its application for glycobiology

What you can learn: data science (python), deep learning, statistics, and/or possible to learn vaccine development, and microscopy

Feel free to contact Dongyoon, a postdoc of
Prof. Christoph Rademacher Lab !!
for more details send an email to
dongyoon.kim@univie.ac.at

Our laboratory address: Josef-Holaubek-Platz 2, 1090 Vienna
